

OPERATIONS MANAGER - STATUS REPORT

June 11th, 2026

Treatment Plants

The treatment plants continue to meet constituent discharge requirements on a routine basis.

Collection System

Crews are continuing with regular operations, daily inspections of District lift stations, issuance of correction notices for repairs on private laterals, and inspections on all repairs. Throughout the month, collection staff inspected waterways and the district effluent outfall line after all rain events. In May the district hydraulically cleaned 18,719 feet of line, and televised 0 feet of line.

Regulatory Compliance: District is maintaining a >90% compliance currently through the 2026 calendar year...i.e., < 2 SSO's, RWQCB Plant Discharge Requirements.

Facilities & Infrastructure

There have been no discharge violations due to equipment failure

Talking Points

- Pacific Hydro was on site Friday June 5th to assess and measure for the dose tank slide gates that are an add on to the now completed Construction project at Huston Creek.
- Spring Cleaning has begun around the district, entrances, plant roads, as well as plant perimeters, are all being cleared and weeded for fire suppression and safety. Crews started our semi-annual cleaning at our outfall at Los Flores Ranch as well.
- Electrical and Instrumentation crews are assessing the scope of work for the secondary pump electrical and transformer rehabilitation and replacement. As well as finishing up the installation of the heaters in the new Screw Press building.
