## Funding

The majority of funding for the budget is from sewer service charges and property taxes, as illustrated in the chart below.

The following table details the major sources of funding.

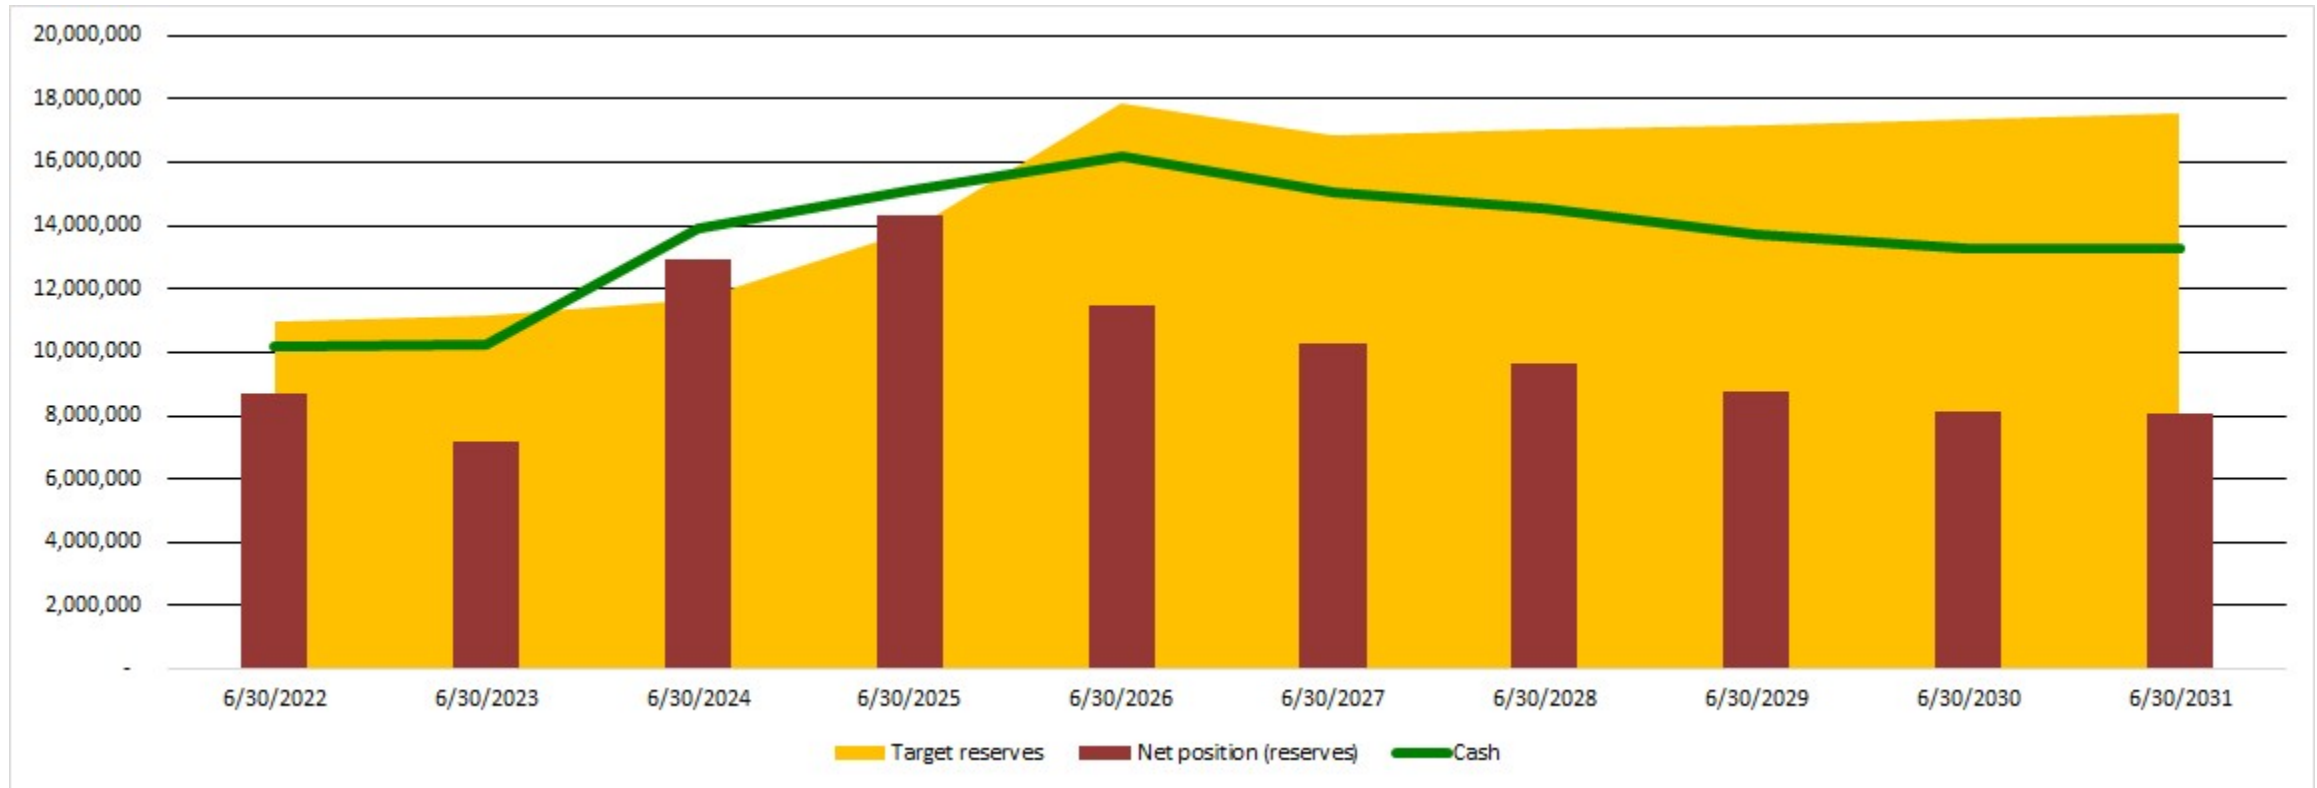

Source of Funding	2026/2027 Budget	% of Total Funding
Service charges	\$ 4,096,700	63%
Permit & fees	49,600	1%
Other service income	183,000	3%
Interest income	325,500	5%
Property taxes	1,831,800	28%
Other non-operating income	300	0%
<b>Total funding</b>	<b>\$ 6,486,900</b>	<b>100%</b>

## Service Charge Rates

The service charge rate will increase by 5% over the prior year following the voter-approved rate increase. The 2026-27 budget reflects a projected net operating deficit of \$963,976 and net nonoperating revenues from taxes and investment earnings of \$2,055,076 for an overall net increase in net position of \$1,091,100, which will be used for capital improvement and replacements and debt service payments.

Reserves

The District manages its reserves in a manner that ensures continuity of services and to protect District customers and taxpayers from the financial impacts of catastrophic events and from fluctuations in District expenses. Reserves are determined in accordance with the District’s Reserve Policy, as calculated on page 18. The following table illustrates prior year reserve balances and projected reserve balances. The significant projected decrease is related to anticipated cash-funded capital projects.

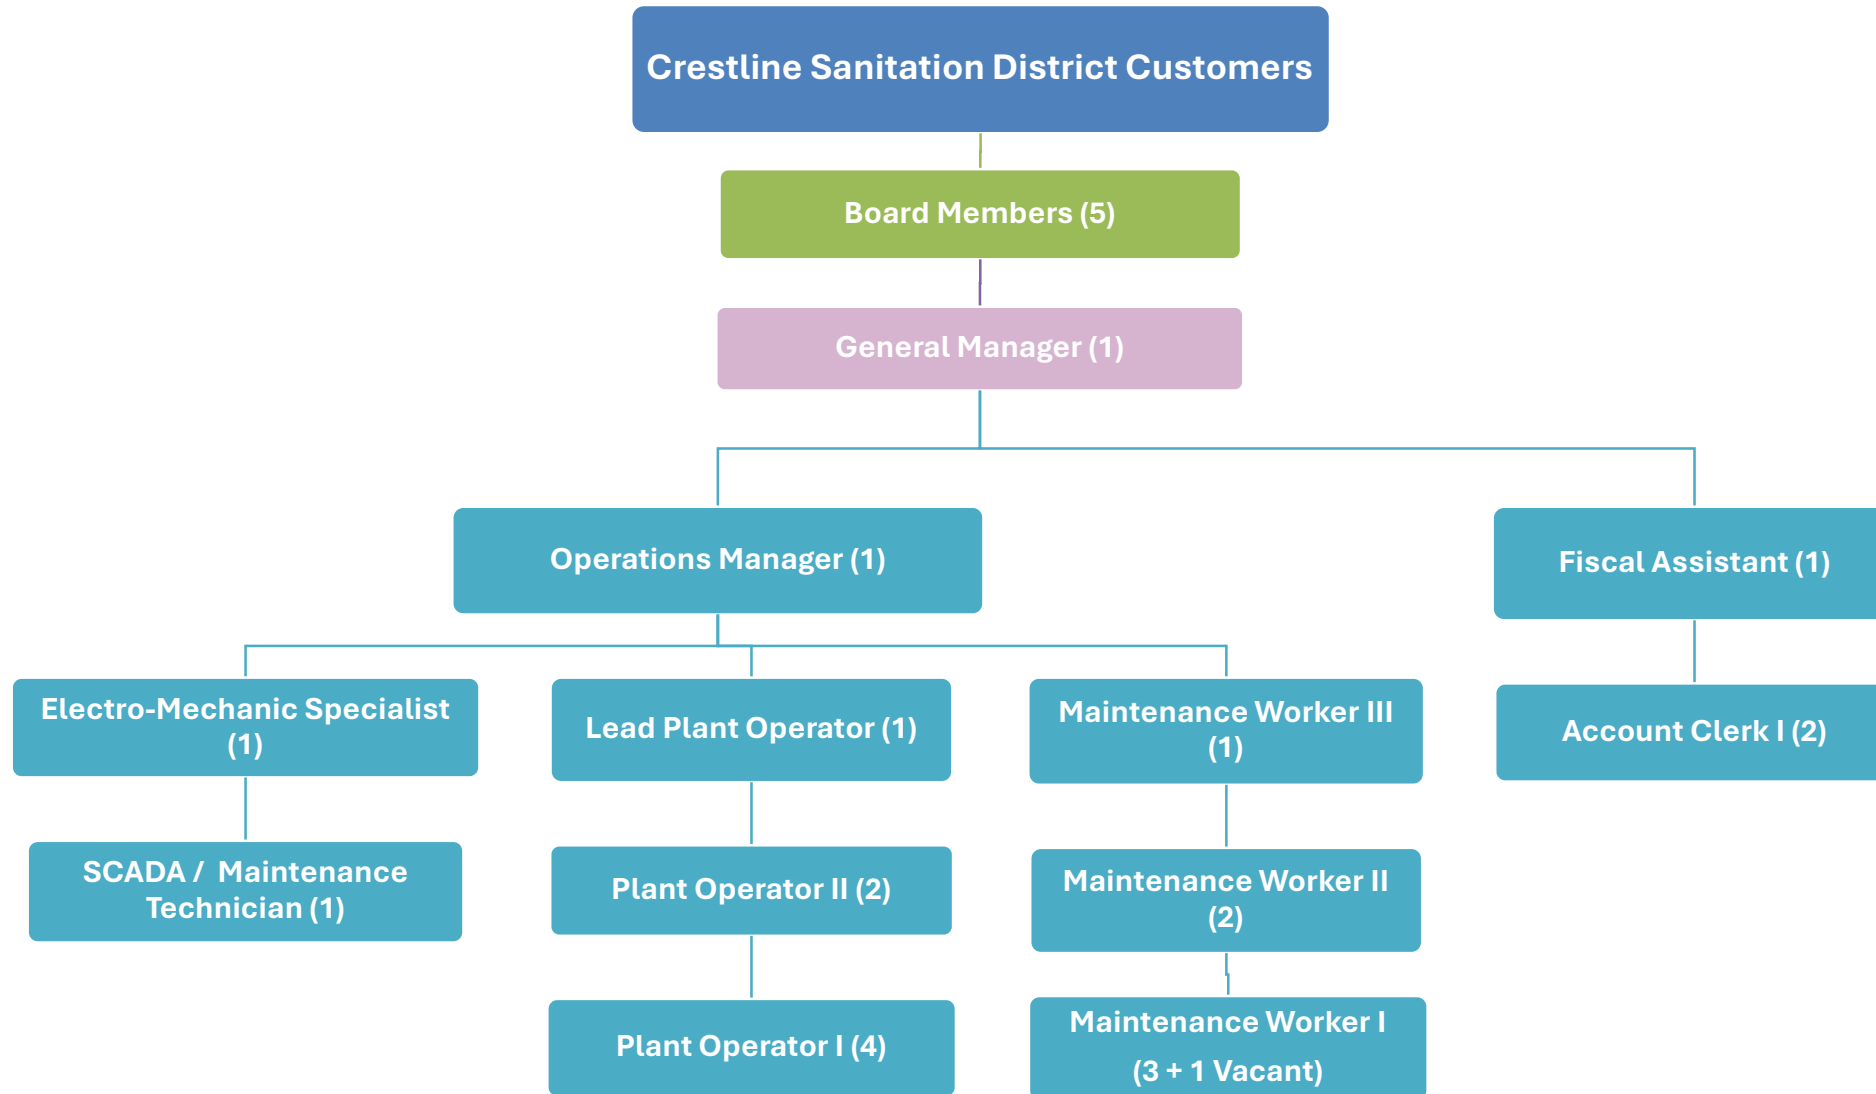

Summary

The Fiscal Year 2026-27 Budget continues the District’s history of responsible fiscal management. Available resources are focused on maintaining services and programs essential to District facilities and improving the quality of service to the customers of the District.
